The issues presented in these cases have taken on many new forms. At this new seminar, an authoritative panel of plaintiffs and defense attorneys will be joined by a physician who often testifies in these cases. They will explore all new topics, including new causes of action the increased reach regarding parties named to the lawsuit, as well as ways in which the defense responds.

  - Failure to address fall downs and broken bones
  - Financial abuse: Misappropriation of a patient's money
